

## A LEADER IN ULTRA-FINE SURFACE MACHINING

We offer customers first-class support throughout the entire lifecycle of their machine, for the highest machine availability and productivity as well as process, planning and security, backed by our worldwide network of qualified technicians and service specialists.

We offer an extensive assortment of consumables including CBN and diamond fine grinding wheels, grinding spindles and mandrels, lapping, honing and polishing wheels, work piece carriers, lapping and polishing agents, deburring tools, polishing cloths as well as a complete range of spare parts.

Our experts are available to provide you with advice and assistance should you have questions relating to use and performance of LAPMASTER WOLTERS consumables.

## TAILOR-MADE SOLUTIONS AND PRODUCTS

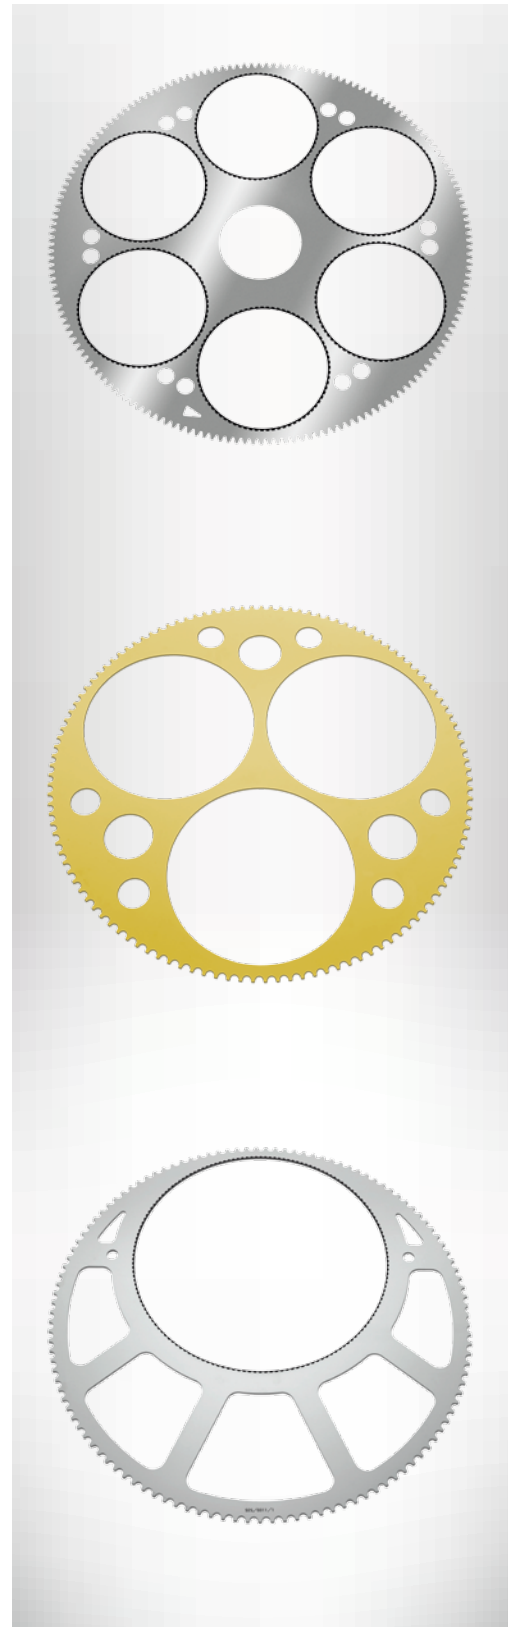

Benefit from our decades of experience as a leader in technology and innovation for surface finishing and have your work piece carriers produced by LAPMASTER WOLTERS. We offer high-precision and high-quality work piece carriers for the comprehensive PETER WOLTERS AC microLine® / DDG machine series.

## THE LAPMASTER WOLTERS DELIVERY RANGE INCLUDES:

- A wide variety of different materials
- Work piece carrier coatings
- Combination of different materials for optimum protection of customer work pieces
- Reworking old work piece carriers

At LAPMASTER WOLTERS we are service oriented providing tailor-made solutions for your needs. We use significant expertise of our process development and application engineering, both which have an innovative and future-oriented stance.

*If you cannot locate the product you require, please contact us so we can discuss your individual requirements.*

## WORK PIECE CARRIERS

| Material                         | Thickness   |
|----------------------------------|-------------|
| • Spring Steel / Steel           | 0.1 – 10 mm |
| • PVC                            | 0.5 – 60 mm |
| • Glass Fibre-reinforced Plastic | 0.2 – 6 mm  |

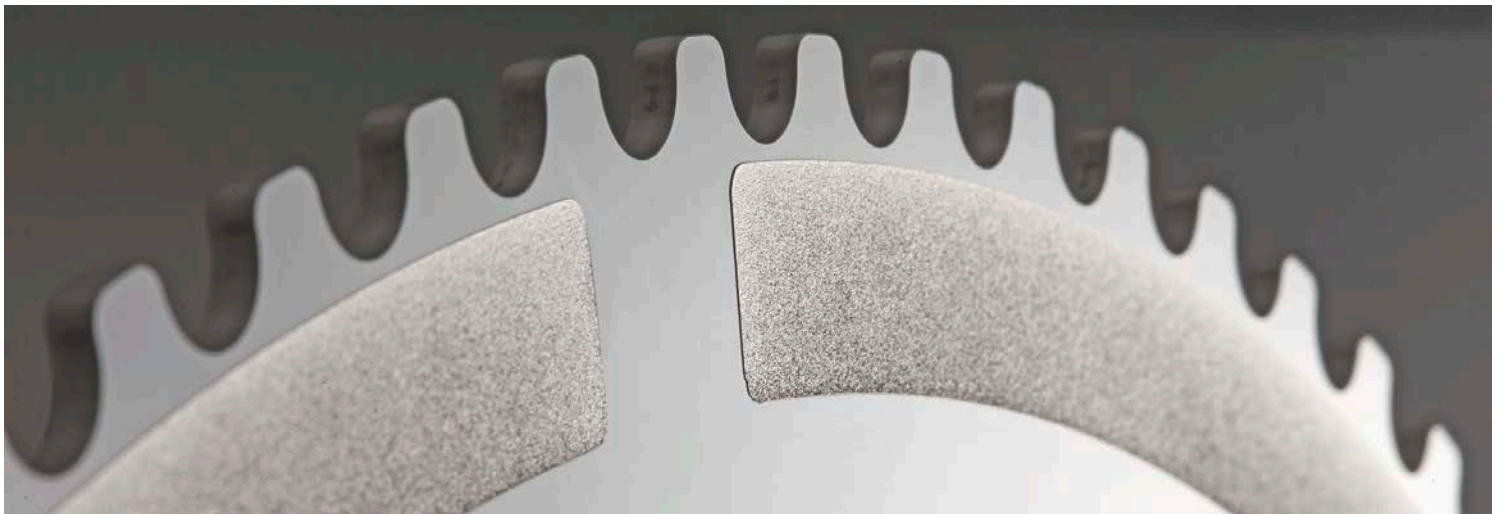

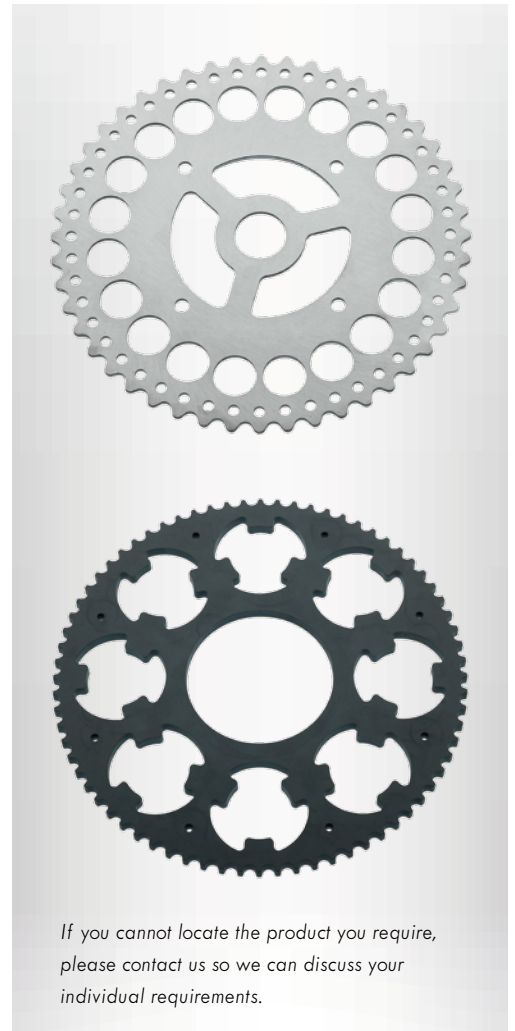

Intermediate dimensions and special dimensions are available on request. All work piece carriers are produced for individual customers on the basis of work piece drawings.

### OUR PRODUCTS SUPPORT YOU IN OPTIMIZING YOUR PROCESS COSTS AND RESULTS BY MEANS OF:

- Highest precision in production of work piece carriers
- Configuration of work piece carriers individually adapted to the process
- Optimum guidance and protection of your work pieces

We specialize in ultra-fine surfaces and tightest total thickness variations (TTV) in work piece carriers. Please do not hesitate to contact us if you have questions or require further information. Contact us at:
